[TEEX Student Portal - NIMS 400](#)

**Audience:** All members of Volunteer, paid, or part-paid departments of cities and Industries who want the latest training in firefighting and related skills.

#### ***Classes are subject to change/cancellation without notice***

**WHO** All members of volunteer, paid or part-paid departments of cities and industries who want the latest training in National Incident Management System and related skills. This training is recommended for all Emergency Response personnel, firefighters, hospital staff, law enforcement, public works/utility personnel, skilled support personnel and school, city and county officials who require a higher level of NIMS/ICS training.

**WHY** National Incident Management System training is one of the important elements that state, territorial, tribal and local entities must complete to become fully compliant with NIMS from FEMA and Homeland Security. Jurisdictions are required to meet the FY07 NIMS requirements as a condition of receiving federal preparedness funding assistance. ICS-300 and ICS-400 training will continue to be an essential NIMS training requirement in future years. During the conduct of this training, students move away from awareness training (IS-700, IS-800, ICS-100, and ICS-200) to practical application of ICS (i.e. development of an incident action plan, establishing a command structure based on a scenario, etc.). The next step in the training process will be for students to develop core competencies by completing ICS position specific training.

#### **NIMS – IS-300: Intermediate ICS for expanding incidents for first responders**

The NIC recommends that all mid-level management personnel should take ICS-300. The course material is specific to personnel who will be serving in the following positions: command staff, section chiefs, strike team leaders, task force leaders, unit leaders, division/group supervisors, branch directors, and multi-agency coordination system/emergency operations center staff. Federal, State, territory, tribal or local agency/organization/jurisdiction reserve the right to make the final decision as to who should complete this course.

#### **NIMS – IS-400: Advanced ICS for Command and General Staff, expanding incidents and MACS for operational first responders**

The NIC recommends that all command and general staff personnel should take ICS-400. The course material is specific to personnel who will be serving in the following positions: command or general staff in an ICS organization, select department heads with multi-agency coordination system responsibilities, area commanders, emergency managers, and multi-agency coordination system/emergency operations center managers. Federal, State, territory, tribal or local agency/organization/jurisdiction reserve the right to make the final decision as to who should complete this course.
